Stay Strong, Stay Positive

Canada's Top Educational Partner

Catalogue
2021 – 2022

Popular Holdings Limited (POPULAR) is the parent company of Popular Book Company (Canada) Limited.

POPULAR began as a bookstore founded in 1924 in Singapore and has, over the years, developed into a business conglomerate that has footholds in nine countries, with more than 4,000 employees. While its core businesses remain to be book publishing, distribution, retail, and education centre, POPULAR also invests in property development and food and beverage.

POPULAR carries out its publishing activities through subsidiaries operating in Singapore, Malaysia, China, and Canada. Its bookstore operations currently have a network of over 200 locations in Singapore, Malaysia, and China.

Popular Book Company (Canada) Limited benefits from the expertise and experiences of other subsidiaries under POPULAR in publishing educational workbooks and learning resources. By working with Canadian educators, we are able to identify and develop products that are attuned to the interests and needs of the market. ■

Head Office: 15 Serangoon North Avenue 5, Singapore 554360

Tel: (65) 6462 9500 Fax: (65) 6337 1186 www.popularworld.com

POPULAR Singapore moved into the new POPULAR head office in September 2015. It is an eight-storey edifice that boasts bright and spacious rooms, recreational and relaxation facilities, and a café.

The office of Popular Canada is located in Richmond Hill, Ontario. A dedicated team of publishing professionals publishes quality workbooks to support the education in Canada.

Popular Book Company (Canada) Ltd.

Incorporated in 1994, Popular Book Company (Canada) Limited is the leading publisher specializing in educational workbooks and learning resources designed and developed by educators with the interests and needs of preschool, elementary, and high school children in mind. Through our products, we have helped young children achieve success in education. Our products for elementary school students cover key subject areas; and our products for high school students focus on building critical thinking in math; our products for preschoolers focus on cognitive and social skill development as well as basic math and language skills.

Our success began with *MathSmart*, our first-ever curriculum-based series published in 1999, with record-breaking sales exceeding 200,000 copies. Since then, the Smart products have expanded to more than 250 titles, anchored by *Complete Canadian Curriculum*, *Complete MathSmart*, *Complete EnglishSmart*, *Complete FrenchSmart*, and *Complete ScienceSmart*. To date, the anchor series have sold 3 million copies combined and have earned us a reputable household name – the Smart company.

With the advance in technology, our effort is no longer confined to print media. Since 2012, we have also published interactive workbooks to provide children with a more engaging and instantaneous learning experience.

To learn more about us and our wide range of workbooks and learning resources, please visit our website at www.popularbook.ca. ■

Popular Canada: Market Leader of Children's Workbooks

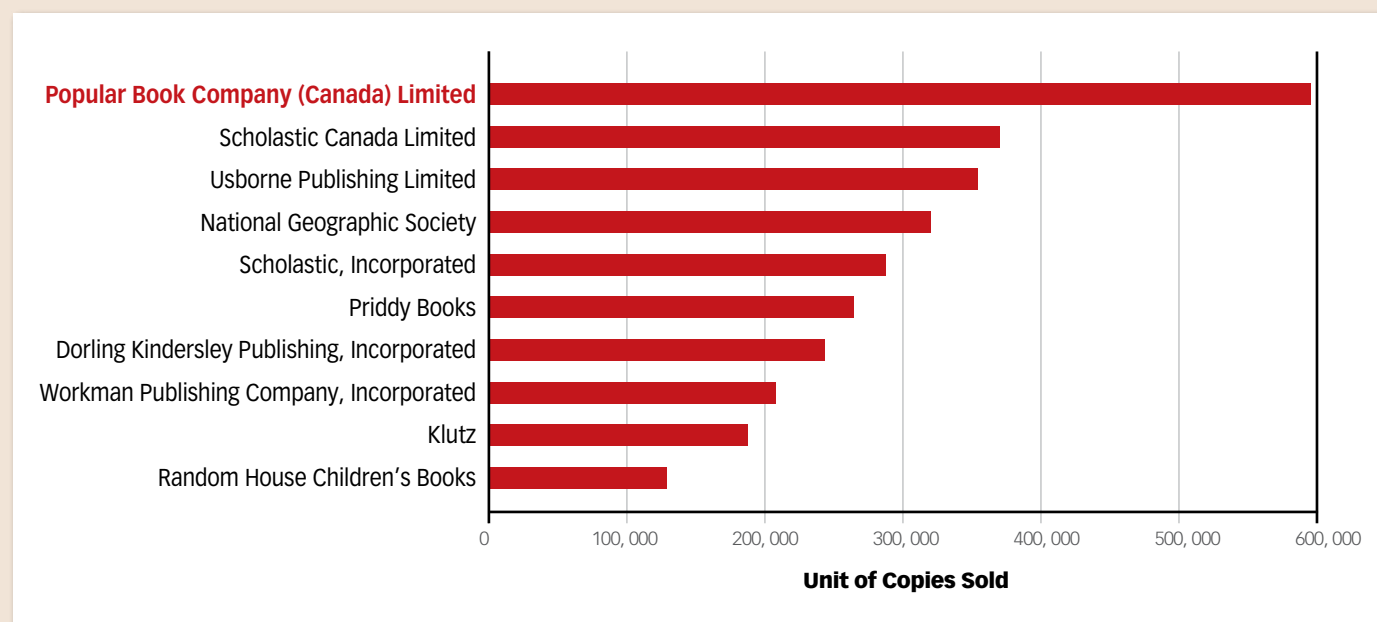

The Canadian book market has been getting more challenging for some time. The evolution of ebooks has led to decreased demand for printed books – something that the pandemic has made worse.

However, Popular Canada had an edge. Thanks to our existing presence, and the promotional activity on our website and social media, Popular Canada was able to get the attention of consumers and meet the skyrocketing demand for our educational products due to the rise of online learning and homeschooling.

Popular Canada Tops the Children's Non-fiction Book Market in 2020

Throughout 2020, Popular Canada continued to be a bestselling publisher in this sector, selling close to 600,000 copies of educational workbooks. This represents a 20% increase when compared to 2018. At the same time, we kept our competitors at a distance – selling about 55% more than the second bestseller of children's non-fiction, Scholastic Canada Ltd.

2020 Top 10 Canadian Children's Non-fiction Book Publishers (Units Sold)

Popular Workbooks – the #1 Choice of Canadian Parents and Students

Popular Canada publishes the first eight of the top ten bestselling workbooks in Canada. Our *Complete Canadian Curriculum* (CCC) series, available from Grade 1 to Grade 8, continues to be the bestselling workbook series across the country. As a staple in Canadian education, CCC, together with our other quality series, has turned Popular into a household name in the Canadian market, and our workbooks remain the #1 choice of parents and students.

Robust and User-friendly Website, Digital Resources, and Social Media Presence

Popular Canada's website (www.popularbook.ca), as our e-commerce platform, offers seamless and easy access to order and purchase all of our titles. With our mission of making learning fun and rewarding for children across Canada and helping them achieve academic success in mind, we also provide a wide variety of bonus digital resources that are aligned with our printed products on our website. The QR codes on these products are linked to our website, giving learners quick access to our suite of online resources, including bonus practice, activities, experiments, audiovisual fun, and much more, to enrich their learning experience.

Our presence on social media, including Facebook and Instagram, allows us to connect with children, parents, and educators alike by providing them with updates of our products, and the educational information and resources they need for the future success of Canadian children.

Stay Strong, Stay Positive with Canada's Top Educational Partner!

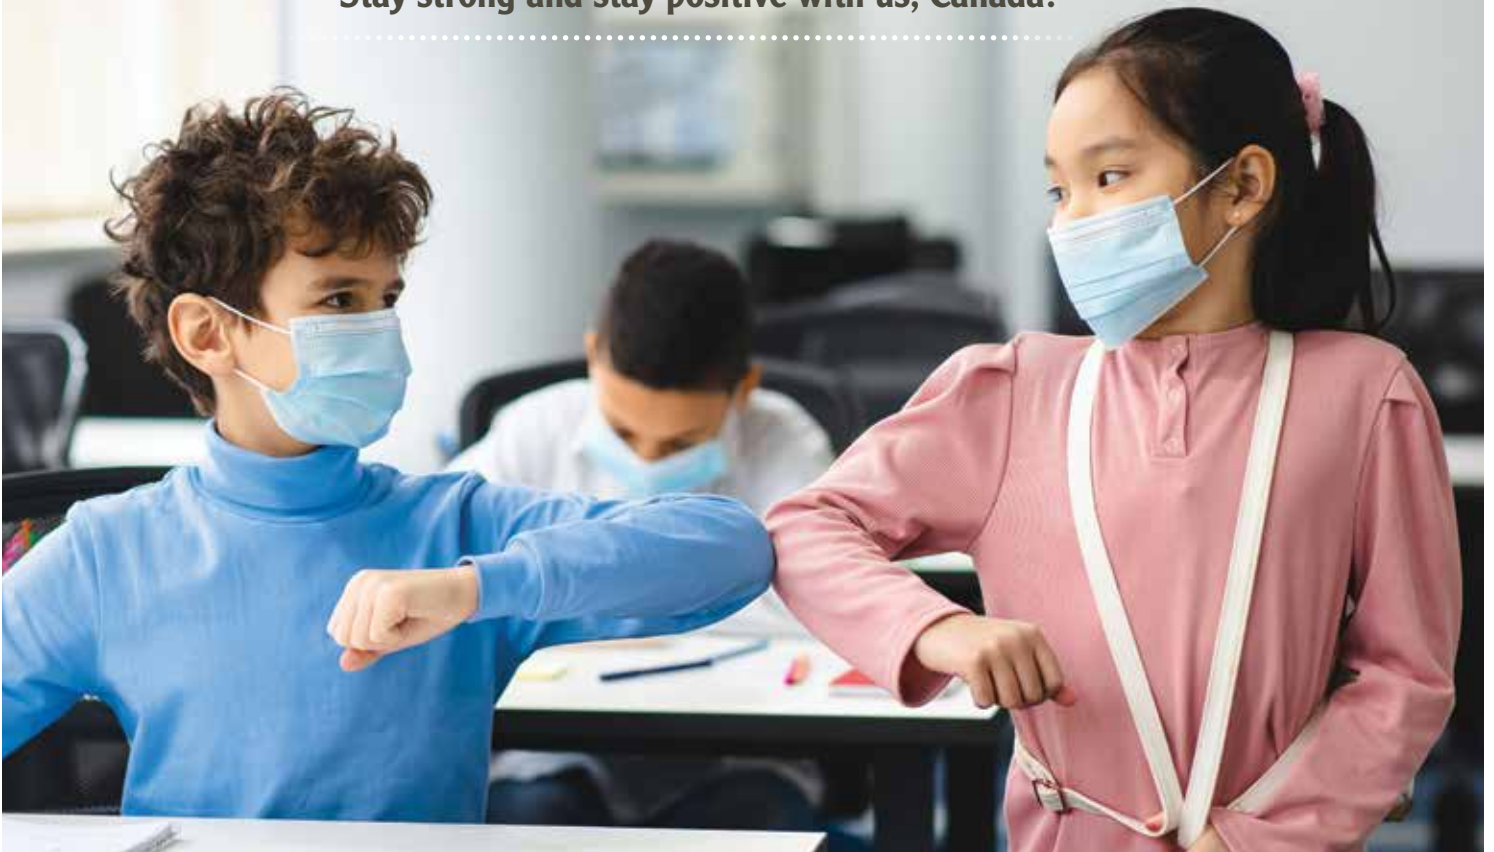

2020 was a year of challenge and change. For most of us, the COVID-19 pandemic changed every aspect of our lives. Children were at the heart of the impact, with school closures across the country and virtual learning becoming the norm almost overnight. Instead of walking to school, socializing with friends, and learning in class, children turned on their computers and experienced excessive screen time every day to learn.

We would like to offer our greatest gratitude to our warehouse, our retailers, our buyers, and workers in essential retailers. Together, they made our quality Canadian curriculum-based workbooks available at essential stores to all students, parents, and teachers during this turbulent time. The incredible demand for our workbooks was encouraging and proved to us that Popular Canada is widely embraced as a dedicated and leading company in supporting children's learning at all times.

Although the impact of COVID-19 reaches far beyond the pandemic itself, our commitment to creating high-quality Canadian curriculum-based workbooks will continue to thrive. Our dedicated publishing team will work tirelessly to provide Canadian children with the most updated and enriched workbooks to help make learning fun and rewarding.

Stay strong and stay positive with us, Canada!

Evaluate. Show your work.

$4^2 \times 4^4$

$8^2 \times 8^2$

$7^2 \times 7^2$

$8^2 \times 8^2$

$9^2 \times 9^2$

$5^2 \times 5^2$

$2^2 \times 2^2$

$3^2 \times 3^2$

$7^2 \times 7^2$

$5^2 \times 5^2$

$2^2 \times 2^2$

$3^2 \times 3^2$

Simplify each expression. Write the answer with positive exponents.

$4^2 \times 2^2 \times 2^2$

$5^2 \times 3^2 \times 5^2$

$4^2 \times 4^2 \times 4^2$

$2^2 \times 2^2 \times 2^2$

$5^2 \times 2^2 \times 2^2 \times 5^2$

$9^2 \times 8^2 \times 9^2 \times 8^2 \times 9^2$

$2^2 \times 2^2 \times 2^2 \times 2^2 \times 2^2 \times 3$

$10^2 \times 9^2 \times 10^2 \times 2^2 \times 9^2$

Evaluate each expression.

Note
Less of Exponents
 $a \times b^2 = \text{times}$
 a and b – **related** number

$2^2 \times 2^2 = 2^{2+2}$
 $2^2 \times 2^2 = 2^4$
 $2^2 = 2^2$
 $2^2 = 4$
 $2^2 = 4$

Note
Number powers at that all powers in an expression have the same base.

$2^2 \times 2^2 = 2^{2+2}$
 $2^2 \times 2^2 = 2^4$
 $2^2 = 4$
 $2^2 = 4$

Answer the questions.

A container is 1 inches tall. How many $\frac{1}{32}$ -inch-thick coins can be stacked and still fit in the container of most?

Can $\frac{1}{32}$ be expressed as a single power in more than one way? If so, what are the possible ways?

How you heard of a light year? While a light year may sound like a measure of time, it is actually a measure of distance. Like most matter, light travels. A light year is defined as the distance light travels in a year, which is about 5.88×10^{12} miles. Simply put, if you keep a flashlight on at a spot in empty space for a year, the distance between the flashlight and the spot in light reaches will be 1 light year. Imagine pouring a beam of light from the sun. How long do you think it would take you to reach Earth? See the QR code to find out and learn more about the application of light years in space.

Understanding Life Systems

D. Read the passage. Then answer the questions.

The Amazing Cacti

Cacti are designed to store water, so they can survive in dry and often hot areas.

Cacti come in many shapes, but most have common water storage features. One of these features is a thick, green, waxy body covered in spines.

This green body is the stem of a cactus, which stores water and makes food. Its thick, waxy coating reduces water loss. Many scientists believe that the spines of cacti are leaves evolved to reduce water loss. These spines protect the cactus from being eaten by animals as well.

Most cacti also have amazing roots that can grow quickly after a rainfall. These roots spread wide and shallow in the ground to collect as much water as possible.

1. Check ☒ the cacti.

2. Fill in the blanks.

- The stem of the cactus can store _____ and make _____.
- The _____ of the cactus can protect the plant from animals.
- The spines of the cactus are believed to be its modified _____.
- The roots of the cactus spread _____ and _____ to collect water close to the ground surface.

covering the main strands of elementary science

short description of the unit's coverage

interesting facts about the topic covered

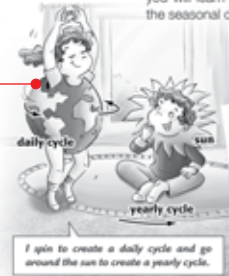

relevant illustrations

useful vocabulary section

Understanding Earth and Space Systems

1 Seasonal Cycles

Our Earth moves around the sun and receives different amounts of energy from it. As a result, it gives us four seasons. In this unit, you will learn how Earth rotates to give us the seasonal cycles and the four seasons.

After completing this unit, you will

- learn what cycle means.
- learn about the characteristics of the four seasons.
- understand why yearly cycles happen.

I spin to create a daily cycle and go around the sun to create a yearly cycle.

season: a time of the year with some specific characteristics

cycle: events that happen in the same order again and again

spring (rainy):

Plants sprout.

Extension

Most countries experience four distinct seasons – spring, summer, fall, and winter – such as Canada and Finland. But some countries, like the Philippines and Cambodia, have only two seasons – a wet season and a dry season. This is because those places are closer to the sun than anywhere else on Earth and get lots of direct light and heat from the sun. Therefore, they usually have warm temperature year-round.

the Philippines

dry season

wet season

A. Fill in the correct months to complete the cycle. Then write the answers.

the month

- after February _____
- before October _____
- after December _____
